

The Orange Cat in Grade School Hijinx: Black Cat Group Bullies - An Interactive Story

Description

This interactive story focuses on The Orange Cat in his grade school years as he tries to make a turning point for the Black Cat Group, a group of black cats that do not-so-good things to the students just for fun and (most importantly) the money. He will encounter hard decisions, tough thinking, and most importantly, the strategy to perfectly take them down and change them for the good.

Introduction

It was a typical day for The Orange Cat at the elementary school. One time he saw the group of bullies named the Black Cat Group, a group of black cats that do bullying for fun and money, apparently abusing the student in the hallways of the school. Wondering about it, he saw an opportunity to end the group's actions of bullying that had plagued the school for five years.
